I am going to the rail park.
I should use the bathroom before I get to the park. There is no bathroom at the park.

I should check the weather and wear clothing that will keep me warm if it is cold, or cool if it is hot out. If it is raining, I should wear a rain jacket or bring an umbrella.
I should wear a mask to the park. I should bring a water bottle and a snack in case I get hungry or thirsty while I’m at the park.
When I arrive at the Rail Park, I can choose to go up the ramp entrance, or go up the stairs.

If I go up the ramp entrance there is gravel on the ground. It will crunch as I pass over it.
If I use the stairs, I can hold the hand of the person I am with when I am going up or down the stairs. I will be near a busy street, so I will stay on the sidewalk.
Sometimes people bring their dogs or other pets to the park. If I want to pet a dog, I should ask the dog’s owner before I touch it.
Sometimes there are wild animals at the park such as birds or squirrels. I should not touch these animals.
Sometimes the park and the street below can be loud. I can cover my ears if the noise bothers me.
There benches at the park. I can look at the park while I sit on the bench, or I can rest while I sit on the bench.
Sometimes the park can be crowded. If I need to take a break from the crowd, I can find a quiet area to sit away from other people.
Plants

There are many plants at the park. I can look at the plants and gently touch them. I should not step on the plants or take them with me.
Swings

There are swings at the park. I can sit on the swings. They might move back and forth. Sometimes they make noise when they move back and forth.
Leaving the Park

When the group of people I am with are ready to go, we will leave the Rail Park. I will stay close to my group on the sidewalk.
